**ABOUT ME**

JavaScript Full Stack Developer experienced in React, Node.js, Express, and MongoDB. Actively learning and implementing TypeScript using AI development tools. Capable of building production-ready applications with authentication, database integration, and modern frontend architecture.

RAJESH YADAV

EXPERIENCE**2025-PRESENT****DEV INNOVATIONS LABS****FULLSTACK DEVELOPER INTERN**

Developing recruitment and events management platform using React 18, Redux Toolkit, Express.js REST API, PostgreSQL with Sequelize ORM, implementing secure authentication (JWT, OAuth2, bcrypt), role-based authorization (candidate/recruiter/admin), email verification (Nodemailer), and Firebase deployment.

2025-PRESENT**MADQUICK DIGITAL AGENCY****FULLSTACK DEVELOPER INTERN**

Built production-ready password manager with zero-knowledge architecture using OPAQUE protocol, Argon2id, and XChaCha20-Poly1305 encryption. Developed RESTful API with Fastify/Node.js featuring JWT authentication, rate limiting, and comprehensive security audit logging. Created responsive React/Next.js frontend with Web Workers for cryptographic operations and optimized user experience. Implemented two-layer encryption model and end-to-end encrypted password sharing with expiration controls. Configured MongoDB with optimized indexing and Redis for session management, achieving sub-50ms query response times.

EDUCATION**2022-2026****B.E IN COMPUTER SCIENCE****2020-2022****CLASS XII - B.N.N****SKILLS**

- React.js, Node.js, Javascript, MERN, Learning Next.js
- * Leveraged strong logical skills in Data Structures and Algorithms (DSA) to develop efficient and scalable solutions.
- * Contributed to full-stack development projects, gaining experience in both front-end and back-end technologies.
